TriNorth Capital Announces Investment in Wild Horse Group

TORONTO, ONTARIO, June 5, 2008 - TriNorth Capital Inc. (TSX: [TRT](#)) is pleased to announce it has made an investment in Wild Horse Group as part of a \$7.5 million private placement. TriNorth invested \$2,002,500 in Wild Horse Group at \$0.75 per share for 2,670,000 shares. It is anticipated that Wild Horse Group will go public before the end of 2008.

Wild Horse Group is consolidating farmland and intends to be one of Canada's largest owners and operators of irrigated farmland in Saskatchewan. The Company's principal business activities focus on acquiring land rights through leases or earn-in agreements to irrigated and dry (with the intention to irrigate) arable farmland in the Lake Diefenbaker area and participation in crop production. Saskatchewan is a globally important source of high yielding farmland, with the province representing approximately 50% of Canada's total production of wheat and canola.

"With pressure on available agricultural resources growing globally, TriNorth is currently evaluating several early stage investments to consolidate crop production in Canada and other countries", said Ravi Sood, President of Lawrence Asset Management Inc, the Manager of TriNorth. "We expect that rising agricultural commodity prices will create positive return opportunities for producers who are able to consolidate resources and increase production efficiencies."

Although farmland prices have been appreciating year-over-year, Saskatchewan still lags the US, Alberta and British Columbia on price per acre, creating an opportunity for the pricing gap to close as Saskatchewan land values appreciate faster than for their neighbours.
